FOUR MAJOR DEPARTMENTS

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE AND CLASSIFIED BUSINESS DIRECTORY constitutes the first major department of the Directory, printed on yellow paper, it represents advertising at its best, and lists the names of the more progressive firms and individuals arranged in alphabetical order under appropriate classified headings to further describe their products or services.

II. THE ALPHABETICAL DIRECTORY of residents and business and professional concerns is the second major department, printed on white paper. This aims to show the name, marital status, occupation and address of each adult resident of Metropolitan Toronto, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on green paper, is the third major department. In this section the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, and new householder symbols. This section also includes a Street Locator Directory preceeding the Street Directory.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Metropolitan Toronto, is the fourth major department, printed on blue paper.

MISCELLANEOUS INFORMATION

MUNICIPAL GOVERNMENT IN METROPOLITAN TORONTO

This article deals with the relationship between local (area) governments within Metropolitan Toronto and the Metropolitan Toronto Corporation, and in particular the extent to which powers are vested in each: The Metropolitan Council and the local Councils.

Based on the recommendations of the Ontario Municipal Board, under chairmanship of Lorne R. Cumming, Q.C., in 1953 the Ontario Legislature enacted the Municipality of Metropolitan Toronto Act, which constituted "the inhabitants of the Metropolitan Area as a body corporate under the name of the Municipality of Metropolitan Toronto". Thus a separate corporate municipal entity was created with specific powers. It was a federation of the 13 existing municipalities: the Townships of North York, Scarborough, Etobicoke, York and East York; the Towns of Leaside, Mimico, New Toronto, and Weston; the Villages of Long Branch, Forest Hill and Swansea, and the City of Toronto.

The 13 local Municipalities continued to exist as autonomous municipal entities retaining considerable powers and responsibilities. In those early years, of the 24 members of the Metropolitan Council, the City of Toronto had 12, and the suburbs collectively had 12, each represented only by its Chief Executive Officer (Mayor or Reeve). An essential characteristic of the Metropolitan system is that members are not elected directly to Council but become members of the Metropolitan Council by virtue of election to office in their local municipalities. Members must be responsible to and responsive to both the local and metropolitan citizens.

During the first ten years of its existence Metropolitan Toronto's achievements were considerable, but disparities and inequities became evident, and particularly in two areas; financially and in representation on the Metropolitan Council as the major growth was occuring in the larger suburbs. The only major change in responsibility was in 1957 when the 13 local Police Departments were amalgamated to become the Metropolitan Toronto Police Department.

In 1963 the Provincial Government appointed Dr. H. Carl Goldenberg, O.B.E., Q.C., as a Royal Commission to make an assessment of the Metropolitan government and report thereon. Submitted to the Cabinet in June 1965, the Report contained a number of important and far-reaching recommendations. Some were accepted, others adapted. The result was the first major change in the organization and the degree of responsibility of the Metropolitan Toronto Council, embodied in a major amendment (Bill 81) to the Metropolitan Toronto Act in 1966.

Effective January 1, 1967, the Municipality of Metropolitan Toronto was reconstituted from the 13 original municipalities to the present 6: the Boroughs of North York, Scarborough, Etobicoke, York and East York and the City of Toronto. Reorganization of the Metropolitan Council, on a more equitable basis of representation by population, increased the total number from 25 to 33, including the Chairman of Council. Collectively the Boroughs had 20 members, the City of Toronto's remained at 12. The Metropolitan School Board was similarly reorganized. Given extensive new powers the most important relate to schools and social services. The Metropolitan School Board now has the responsibility for financing school construction and operation through the establishment of a Metro-wide tax rate eliminating previous disparities. The Metropolitan Corporation took over full responsibility for social services, also waste disposal, financing regional libraries, etc.

By 1973 it was obvious that "Rep by Pop" was again out of line as major growth continued in the larger Boroughs with population of the City of Toronto remaining relatively constant. In 1974 the Metropolitan Council sought and received an amendment to the Metro Act to effect a change in representation, effective January 1, 1975: City of Toronto - 12 North York - 10; Scarborough - 7; Etobicoke - 5; York - 3 and East York - 3, for a total of 40.

At the inaugural meeting of Metro Council, all forty members elect a Chairman, who performs a similar function to the City's Mayor. Although it is not a requirement, the Chairman may already be a member of the Council, in which case the vacancy created by the appointment is filled by another member of the local Council.

A major change was made for the first time in the composition of the Metropolitan Executive Committee, again reflecting the population growth in the large member Municipalities: City of Toronto - 4; North York - 3; Scarborough - 2; Etobicoke - 2; York - 1; East York - 1, plus the Chairman of Council who presides, a total of 14.

A change in organization occured with the dissolution in December 1974 of the Metropolitan Toronto Planning Board. Planning became a Department of the Metropolitan Corporation.

THE FEDERATION IS A PARTNERSHIP

Municipal services are identified as local, Metropolitan or shared in proportion to the extent of involvement of each level of municipal government.

The Metropolitan Council has jurisdiction over matters of common concern to all six municipalities. The Metro government is a partnership formed to provide at wholesale those public works and services which each area municipality could not adequately provide for itself alone: solutions to problems which are metropolitan-wide, or regional, in scope.

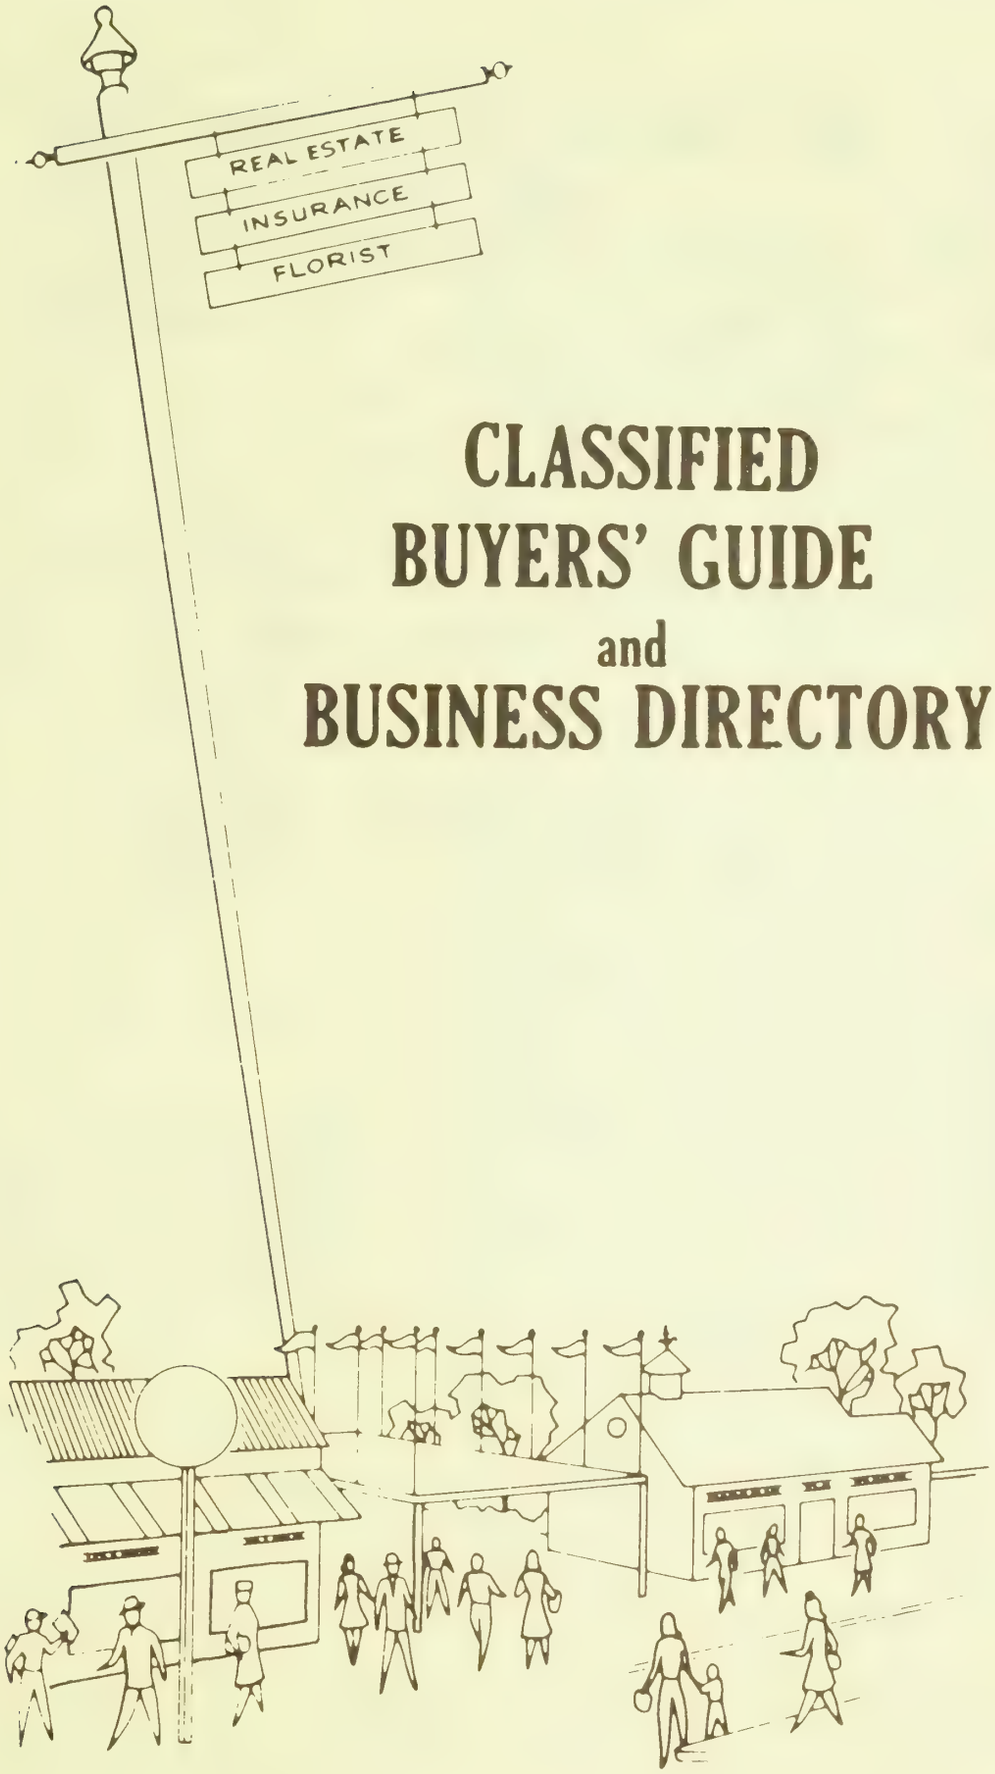
BOARDS OF EDUCATION



In Toronto, we have two school systems; Public and Separate (Catholic). Each Municipality has a Public School Board, but the Separate Schools have one collective Metro Board. Voters may support either the Public or the Separate school system.

Both Boards receive funding from property taxes collected by the City. Voters, in declaring which of the two school systems they support, are thus indicating to which board their education taxes will be allocated. In the case of the Metropolitan Toronto School Board, a per capita percentage of the school taxes is levied against each Municipality.

The Toronto Board of Education administers the City's public school system, both elementary and secondary. Public School supporters elect two representatives from each of the eleven wards to this Board, while Separate School supporters elect one member from each of four areas in the City.

The Metropolitan Separate School Board similarly administers the separate elementary and secondary schools in Metro. Separate School supporters vote for one member from each of seven areas in Metropolitan Toronto.

ORANGE INSURANCE OVER 100 YEARS OF CONTINUOUS SERVICE

Orange Insurance marked its Centennial in the year 1981, and that is over 100 years of providing assistance to Policy Holders from coast to coast in times of distress and hardship. Any Company that is able to boast over 100 years of operation must be secure, and you can be sure that Orange Insurance is as solid as the Rock of Gibraltar. Plans are under way to make every year a very special year, particularly for Policy Holders, and there's no time like the present for you and your family to share in the benefits of Orange Insurance.

CANARIM INVESTMENT CORPORATION LTD.

"THE EXCHANGE TOWER"

Canarim Investment Corporation Ltd. is a member of the Vancouver, Alberta and Montreal Stock Exchanges and the Investment Dealers Association of Canada. An application is currently pending to join the Toronto Stock Exchange. The company's head office is located in Vancouver, in the Stock Exchange building, an exchange which Canarim has helped to achieve world stature as a primary and reliable source of venture capital.

Canarim's origins date back to 1950 when the company was formed as Pacific Securities Ltd. During the ensuing twenty years it was renamed to reflect the involvement of its principal partners, H.H. Hemsworth and A.E. (Ted) Turton.

Peter MacLachlan Brown joined Hemsworth Turton & Co. Ltd. in 1968 and subsequently became President in 1972, at which time the company was completely reorganized and renamed Canarim Investment Corporation Ltd.

DIFFERENT BY DESIGN

In most fields of endeavor, companies expend large sums and considerable effort to establish an individual identity. Canarim is different by design. While it provides all of the traditional investment services to its individual, corporate and institutional clients, it specializes in raising venture capital for primary resource and high technology industries.

The company's remarkable growth in trading volume and profitability during the past decade are indicative of the real differences in client service and opportunity which distinguish Canarim from its more traditional competitors.

Acting as underwriters and agents, Canarim has become the largest junior resource and venture capital financing house in North America. The largest volume trader on the Vancouver Stock Exchange, the company is also increasingly active on all other Canadian exchanges and has ready access to U.S. and foreign markets through membership and/or affiliation.

CONSISTENT GROWTH AND DEVELOPMENT

During the early 70's, while traditional investment houses largely ignored the growing demand for venture equity capital, Canarim was gearing up for the resource and energy boom.

"Our aim was to systematically build the best venture capital firm in Canada and that we have accomplished", observes Peter Brown, Canarim's President and undoubtedly Canada's most prolific and enthusiastic equity financier. *"At first we set modest goals that were achievable, targetting annual growth at 10 to 15%. The only year in which we did not have a goal was 1980. We were so busy coping with the tremendous volume we scarcely had time to set one"*.

Canarim had found a natural void in the market and through aggressive and imaginative financing was able to satisfy pent-up demand from companies requiring between half-a-million and $5 million in equity — too small an amount for senior underwriters and too large a sum for smaller firms with weak distribution.

The fact that Canarim has been consistently profitable provides clear evidence of the wisdom of its strategy.

The company began a further expansion when Vancouver's headquarters were moved to the new Vancouver Stock Exchange building in the Pacific Centre. At the same time, several leading analysts were engaged as well as additional specialists for Canarim's growing corporate finance and trading services.

From offices atop The Exchange Tower in Toronto, the latest computer and communications technology is being installed by Canarim to support its Toronto-based and globally directed corporate services, investment sales and trading, and money management activities.

A RECORD OF SUCCESS

Today Canarim continues to attract the cream of the venture capital market including many of the most successful ventures in recent memory such as International Corona Resources and other lead companies in the Hemlo gold field in Ontario and the equally exciting Breakwater gold property in the U.S. Northwest.

Unequivocal in his enthusiasm and support for the venture capital market, Peter Brown regards it as one of the most important contributors to Canada's economic development, a fact long neglected by most of the country's investment community.

Canarim's impact on the market and its many successful financings have caused its more traditional competitors to take a hard second look at underwriting junior resource companies. Several have become consistent and substantial buyers of Canarim issues and Canarim, in turn, has arranged numerous financings for national houses which lack experience in the junior market.

More important, Canarim's extraordinary success has attracted many of the investment industry's best producers as well as its brightest research analysts and money managers. The company employs a total of 400 people in Vancouver and Toronto, including some 200 registered representatives.

SOPHISTICATED ORGANIZATION AND MANAGEMENT

With increasing volume Canarim's organization and management has become increasingly sophisticated and today the company employs as many computer terminals as people to assess and track trends in the inherently volatile junior market. Nevertheless, in evaluating risk, Canarim continues to place primary emphasis on people and experience matched by an instinctive understanding of the market which only comes with many years of practical exposure to this highly specialized area of investment.

"Those who are well prepared for a good market do 60% of the business", observes Peter Brown, *"other firms split what is left"*.

Every venture capital investment involves an element of risk and Canarim is careful to make its clients as much aware of the risks as the high potential return on investment. Well balanced portfolios, thorough research and analysis plus stringent management of the source and use of funds, help to minimize risk and maximize return on investment for Canarim clients.

Some 15% of the company's total client funds originate overseas, primarily in Europe. A further 25% of the company's volume comes from the United States. Growing volume and confidence in the Vancouver Stock Exchange as well as the new membership in the Toronto Stock Exchange promises to provide ever widening opportunities for Canarim and its client investors.
